

TESTIMONIALS:

THE NEXT GENERATION OF HU-FRIEDY IMS CASSETTES

INSTRUMENT
MANAGEMENT

Studio Dr. Carlo Ghezzi (ITALY)

Using new generation IMS cassettes.

“ We really appreciate the innovative and modern design with the new hole pattern and rail system of the Hu-Friedy IMS cassette. The additional open area and reduction of contact helps prevent rinse shadows during the cleaning process. Instruments are securely held in place to prevent sharps injuries and instrument damage.

I recommend the use of new IMS cassettes to save time, increase efficiency, protect instruments from damage and reduce handling of contaminated instruments by my staff. Cassettes create a well organised system for transporting, cleaning, sterilising and storing instruments.

In addition, we are Italians. We love design and we love the new design of the new Hu-Friedy IMS cassettes. ”

About: Studio Odontoiatrico Dr. Carlo Ghezzi

Via Verdi 4- 20019 Settimo Milanese (MI) - ITALY

www.studiocarloghezzi.it • www.meg-educational.com

Carlo Ghezzi graduated in 1999 in Dentistry at the University of Milan (ITALY) where he immediately took care of Periodontology and Implantology.

Since 1999 he has been attending the Department of Periodontology at the University of Milan and in 2004 became the tutor for the degree course in Dentistry. He became Adjunct Professor at the University of Milan for Periodontology, retaining this position until 2010.

He is a lecturer in courses and conferences and author of scientific publications in national and international journals about periodontal and prosthetic implant.

He holds annual courses for postgraduate Doctors and Hygienists for the treatment of patients with periodontal disease.

In 2009, together with a group of colleagues equally prepared and passionate, he founded Studio Ghezzi. In 2013 he founded MEG (Master Educational Group), a training course center for continuous education.
